## Mission Statement

**Our Vision: Together we encourage young minds through creative play, to be curious, independent and resilient.**

We believe that creative play is not just a pastime but a powerful tool that unlocks a child's potential, transforming the ordinary into the extraordinary. By fostering a sense of curiosity, we are encouraging young minds to ask questions, explore new ideas, and build a foundation of lifelong learning. Our mission is to create a nurturing environment where children feel safe to dream big, experiment freely, and find joy in the process of discovery, all while developing the critical thinking skills that will empower them to shape a brighter future.

### Our values:

- Happy** A child's first experience with education should be a joyful one. We believe that happy children are eager learners. Our nursery is a place filled with laughter, smiles, and positive energy, where every child feels a sense of belonging. We create a positive and cheerful atmosphere through engaging activities, warm interactions, and celebrating every small success. By fostering a love for learning in a happy environment, we help children build a strong, positive foundation for their educational journey.
- Safe** The safety and well-being of every child are our top priorities. Our nursery provides a safe and secure environment where children can freely explore and play. We also focus on emotional safety, ensuring every child feels respected and understood. By creating a physically and emotionally safe space, we give children the confidence to be curious, take risks, and learn without fear.
- Nurtured** We understand that each child is a unique individual with their own needs and pace of development. Our dedicated educators provide a nurturing and caring environment that supports a child's social, emotional, and cognitive growth. We build trusting relationships with each child, offering gentle guidance and encouragement. We believe that a nurtured child is a confident child, ready to explore the world with a sense of security and self-worth.
- Valued** All children should feel seen, heard and respected for who they are as an individual. Being valued means they feel their thoughts, feelings, and ideas are important and that their presence matters to the people around them. This feeling is fundamental to a child's self-worth, resilience and overall development.
- Fun** Learning should be an adventure, and fun is at the heart of everything we do. We incorporate playful and engaging activities into our curriculum. We believe that when children are having fun, they are more engaged, more curious, and more likely to retain what they've learned. Our goal is to fill every day with wonder and delight.
